- Ability to work independently and collaboratively in a team environment

EDUCATION

AlBaath University (2019-2024)

Bachelor's Software Engineering

EXPERIENCES

Front End Developer (2021-2023)

freelancer

- Designed and developed responsive web applications using HTML, CSS, JavaScript, React.js, Redux, and React Router.
- Collaborated with the backend team to integrate RESTful APIs and ensure seamless data flow between front-end and back-end.

PROJECTS

- Developed a To Do list application using React.js and json-server for fake API. The application allows users to create an account, log in, and can add some actions that they will perform.
- Developed a responsive website using React.js and django-rest-framework. The website allowed users to download books with filtering and search.
- Developed a Real Estate store using React.js and fake API with beautiful design. The store allows users to search and filter the home they need.
- Developed a website to teach the Python programming language to children. This project was developed at my university. We used HTML, CSS, JS, Bootstrap, and Django.
- Developed a memory game using React.js and CSS3 with three levels.
